SUNBRELLA - Savane

Savane is a densely woven outdoor / indoor upholstery fabric, full of rich color.
It adheres to international contract grade specifications (refer to info page)
We recommend bringing your Savanne cushions inside when not in use to reduce soiling,
bird droppings and dust accumulating.

SUNBRELLA®

A BRAND THAT CARES
ABOUT THE ENVIRONMENT

Mould resistance

Water stain resistant

Sun protection

May be cleaned with
bleach

Breathability

UV colorfastness

LESS WASTE

Our quality Sunbrella® fabrics do not rot or fade and are highly resistant over time. As our fabrics do not need to be replaced as often as traditional fabrics, they generate less waste.

LOW WATER CONSUMPTION

In the solution-dyeing process, colour pigments are added to the yarn as it is spun, to guarantee colourfastness and save water. The small amount of water used in our weaving process is fully recycled in-house.

PRODUCT LIFECYCLE MANAGEMENT

As part of its Renaissance program, Sunbrella® created the Heritage Renaissance line containing up to 50% recycled solution-dyed acrylic fibres.

Recycled fibres are sourced directly from production plants where waste is divided into colour groups and turned back into fibres. These fibres are then blended with the “virgin” Sunbrella® fibres.

sunbrella.com/sustainability

ENVIRONMENTAL CERTIFICATIONS

REACH REGULATION

Sunbrella® has developed treatments designed and applied in strict compliance with European REACH regulations.

REACH is a European regulation designed to improve the protection of human health and the environment from the risks posed by chemicals, while enhancing the competitiveness of the EU chemicals industry.

GREENGUARD CERTIFIED

Sunbrella® upholstery fabric has achieved GREENGUARD GOLD Certification. Sunbrella® upholstery fabrics are certified by GREENGUARD as contributing to healthy indoor air by being a very low emitting interior product.

ZERO LANDFILL

For over 30 years, Sunbrella® has recycled its industrial wastes such as yarn and packaging. Today, every Sunbrella® manufacturing facility around the globe sends absolutely no waste to the landfill.

QSEE CERTIFICATION

(Quality-Safety-Environment-Energy)
ISO 9001, ISO 14001, ISO 45001 and ISO 50001

As part of our continuous improvement approach, and to better meet the needs of customers, our products are certified to international standards by Bureau Veritas Certification. These standards guarantee the consistent quality of our products, protect the ecosystem, improve energy performance and enhance the efficiency of our QSEE system.

OEKO-TEX LABEL

A quality that meets human-ecological requirements. Awarded with the OEKO-TEX label (class II - products with direct contact to the skin), Sunbrella® fabrics are produced without hazardous substances and do not pose a threat to health, the skin or the environment.

5 YEAR WARRANTY

Sunbrella® acrylic guarantees outstanding colourfastness.

SUNBRELLA

- Care and Cleaning

For more information:

<https://global.sunbrella.com/en-us/how-to-clean>

HOW TO CLEAN

All Sunbrella® fabrics are engineered to combine the highest level of design and performance. For easy day-to-day maintenance of your Sunbrella fabric:

1. Brush off loose dirt.
2. Spray on a cleaning solution of water and mild soap.
3. Use a soft bristle brush to clean.
4. Allow cleaning solution to soak into the fabric.
5. Rinse thoroughly until all soap residue is removed.
6. Air dry.

PERMABLOK³®

ADVANCED VINYL PROTECTION is a proven vinyl protective coating that is engineered to create a tough, effective barrier against germs, abrasion and stains.

Hi-Loft²™ Hi-Loft²™ is a specialty knitted textile manufactured with 100% polyester yarns aimed at creating a backing with bulk, strength, and unusual softness. When combined with a vinyl surface, an extremely soft hand quality is achieved without sacrificing product performance. (Adhesion, tear strength, and stretch strength properties are also improved.)

SPRADLING - Silvertex

- Care and Cleaning

For more information:

<https://spradlingvinyl.com/resource-library/>

<https://spradling.group/en-us/products/documents-archive/cleaning-guides>

We recommend cleaning at least once a week to extend the lifespan of the upholstery, preventing dirt and contamination from building up and stains from becoming permanent.

Clean the whole surface in circular motions using liquid hand soap and water (1 part soap to 9 parts water), or check the guide for recommended cleaning products. Rinse and wipe with a clean damp white cloth to get rid of any excess soap. Repeat as needed and then let dry.

Once a month, you can use a soft-bristle brush for a deeper cleaning. Remember, light colours need more care, more often.

PRODUCTS WITH PERMABLOK[®], & PERMAGUARD[®]

Spradling[®] products are in its majority protected by PERMABLOK[®] or PERMAGUARD[®], two of the most effective defence systems against germs, stains and abrasion. Two impermeable barriers to safeguard your investment. For optimum care and cleaning please read the following instructions and recommendations.

Disinfectant Use:

The information published in this care guide refers to the performance of PERMABLOK[®] and PERMAGUARD[®] products in specific tests conducted under laboratory conditions. Results may vary under actual conditions.

Rinse the area with clean water; then dry with a clean, lint-free cloth after using any disinfectants and cleaners.

Cleaning After Disinfection:

The coated fabric should be cleaned periodically in order to maintain its appearance and prevent build-up of dirt and contaminants. Any stain, spills, or soiling should be cleaned up immediately to prevent the possibility of permanent staining.

Use a mixture of liquid soap (neutral pH) and water or our approved cleaning products for coated fabrics to remove stains on the surface of the material. Remove only with a damp white cloth. Lacquers, strong cleaners, detergents, xylene-based solutions, acetone, or ketone (MEK) cause immediate damage and contribute to the deterioration of the material. The use of such cleaners is at the owner's risk.

Daily Cleaning

1. Clean the entire surface using a mixture of 1:9 liquid soap (neutral pH) and water. Do not use soap or cleaning solutions that contain alcohol, ketones, xylene, acetates or solvents (mineral/white spirits).
2. Completely remove excess cleaner with a white, clean, damp cloth.
3. Dry the surface.

Cleaning methods to remove tougher stains

- **Step 1:** Coffee, juice, red wine, sauces, chocolate, grease, crayon and suntan lotion. Remove excess spill with a damp cloth. Clean with a 1:9 mix of neutral liquid soap and water. Next, rinse with clean water and dry.
- **Step 2:** Make-up Use a straight application of neutral PH soap. Wipe with a clean white cloth or soft brush, rinse with clean water, and dry.
- **Step 3:** Blood, urine, faeces and all other tough stains Use a 1:10 mix of Isopropyl alcohol and water. Rinse thoroughly with clean water and dry.

Note: For cleaning use a soft white cotton cloth saturated with the recommended cleaning agent and rub the stain in circles 10 times. Pat dry with another soft white cotton cloth and check the results. Do not use steel bristle brushes, abrasive scouring pads or metal, these cause permanent damage to the fabric.

Methods 2 & 3 are not recommended for everyday cleaning!

After cleaning, rinse the area with clean water; then dry with a clean, lint-free cloth. Failure to remove chemical residue will cause discoloration of the coated fabric surface to manifest earlier in the life cycle of the product.

All other products:

For products other than PERMABLOK[®] & PERMAGUARD[®] follow the steps of Cleaning after disinfection as mentioned above but avoid the use of Isopropyl alcohol (as mentioned in Step 3).
