Beautiful hanging swing chairs, loungers and daybeds are the passion of Studio Stirling.

They are made from steel and are strong and durable. Each one is made by hand and it allows for each piece to have individualism and uniqueness in some of the pattern detailing due to the variance of craftsmanship. They are ideal for inside or outside use and look gorgeous on a deck, patio, hanging from a branch of a tree or anywhere indoors. They are comfortable and oh so relaxing.

A variety of designs and cushion and fabric choices are available.

Custom and exclusive designs can be discussed.

TRAVEL + DESIGN NEWS

Damien Hirst's New Suite at the Palms Casino Resort Costs \$100K a Night

By Erin V. Mahoney - March 5, 2019

View Photos

A bedroom with a large bed, a blue wall with butterfly decorations, and a large window. The bed is covered with a grey blanket and has several pillows. The wall behind the head of the bed is blue and decorated with many small butterfly cutouts. A large window on the left side of the room offers a view of the city.

a bit about the team

Joanina - designer:

A design and advertising guru as it were, Joanina is one of a kind, full house. Having earned her position as Head of Creative at LOWE Cross Colours she has proved herself numerous times, with many local and international awards as evidence and is very proud to have won a sought after D&AD Pencil. Joanina sat on the judging panels of both local and international award ceremonies including the highly prestigious Cannes Advertising Festival, the New York Festivals, Dubai Lynx, A Award, Loeries and was the President of the Design Category for the London International Awards.

Innovation and audaciousness are part of her character, always challenging the norms and finding creative solutions that enhance the identity and personality of a brand. Highly energetic, she loves to devour all forms of visual communication and is a keen observer of the latest trends. She has always had a love for beautiful objects and is now focusing on designing hanging furniture - a passion that she has had for a long time. She can fondly remember coming back from a trip to London once with a hanging chair in tow. She supplies discerning clients and selective stores all over the world.

David - photographer and curious wannabe inventor

Starting out as a husband and wife team was definitely a double whammy! David being a photographer, certainly had an eye - and an aesthetic one at that. He enjoyed extending his talent into creating three dimensional objects. He was down to earth and practical which was a definite plus and as he was certainly more than 'handy' assisted technically. On occasion even had to dig deep to find some of that Boy Scout training in figuring out the tying of some of the specialised knots needed in the rope for the hanging the models. It was huge fun to work together on some of the more challenging pieces. David passed away in 2017 but left the business in a stable condition with the existing range well in place. His photography partner is now continuing doing the photographic work and and the metal work team is well entrenched and in place. The business is continuing and going from strength to strength despite the crucial loss. We are grateful for the input and care he generously shared in the business.
